

JFL Home

Uma marca do Grupo JFL Alarmes

JFL-SW201 Intelligent Controller

Technical specifications

- Input voltage from 90 ~240 Vac ;•
- Maximum current 10A;
- Compatible with conventional switch;
- Built-in 2.4 GHz Wi-Fi module;•
- Easy installation and configuration;
- Control the lighting by cell phone.

Technical Specifications

Characteristics	
Input voltage	90 ~240 Vac / 50 ~ 60 Hz
Output CurrentWireless	Max. 10 A
Frequency	2,4 GHz
Wireless Standard	IEEE802.11 b/g/n
Wireless Security	WEP64 / WEP128 / TKIP / CCMP(AES)
Wireless Module	WB2S, Anatel certificate 11605-20-11765
ApplicationCompatible with	JFL Home Conventional switch
Operating Conditions	5°C ~ 45°C , humidity 35% ~ 85%
Product Dimensions	55 x 47 x 18 mm
Weight of Packaged Product	53 grams
